DOTAZIONE COMUNE DI SERIE

- Double column hydraulically controlled lifter/dumper.
- Painted steel rack raised from the ground on 4 adjustable feet.
- Integral protection cage with access door.
- Electric controls with automatic cycle.

ACCESSORI A PAGAMENTO

- Stainless steel structure.
- Scraping and rotation device.
- Scraping device installed on bowl lifting trolley.
- Scraping and rotation device for trolleys not produced by our company.
- Special electric system that signals, by means of a photocell, the level of dough in the hopper that must be loaded (bowl lifts only if there is no dough in hopper).
- Access to protection cage protected by infrared ray barrier.
- Special connections for trolleys which are not produced by our company (see note).
- Intermediate discharge.
- Discharge chute l =400 mm.

Note: For bowl-trolley connections which are not produced by our company

To produce this optional equipment, the bowl to be dumped must be made available to our premises for at least one week. This will allow us to perform the necessary activities and guarantee its correct operation. Only after technical dept. approval.
